Mission Statement

The Mower County SWCD is a grassroots organization governed by locally elected officials. Its mission is to protect and enhance the county's natural resources while maintaining a viable economy

Vision Statement

Our SWCD's vision is for a Mower County where our natural resources contribute significantly to our quality of life and to a viable, diverse economy. The county takes pride in its soil protection programs, improved water quality, wildlife habitat and improved recreational opportunities.

This has been achieved through cost effective, efficient county, state, federal and private partnerships. Because it represents local citizens through its elected board, the SWCD is recognized and visible for its unique leadership role.

This leadership role includes identifying and addressing natural resource needs and opportunities, long range planning, and program evaluation. The SWCD continues to be a trusted source of educational, technical and financial assistance for citizens and local governments.
